

Weather Radio

The weather radio will alert whenever the National Weather Service issues a watch or Warning for Greenville County. The system is tested every Wednesday between 11:00 am and noon, unless there is bad weather.

Overview

The weather radio alerts whenever a product is issued for Greenville County. Unfortunately we live in a very large county, so it is not always necessary to take action. While the radio will alert you to a threat, the Internet can provide information as to whether there is an immediate threat to the building. Links have been established on the computer to help the supervisor make a decision.

Actions

A **watch** means that conditions are right. A watch gives you time to prepare.

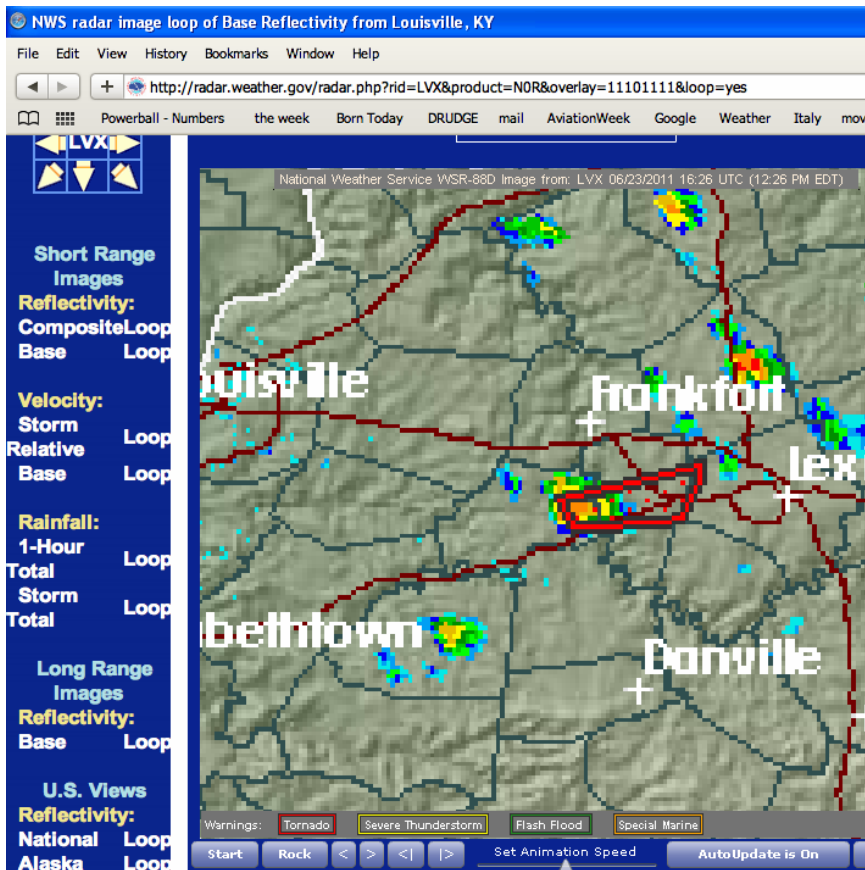

- ...**SILENCE THE ALARM BY PUSHING THE ALERT BUTTON**
- ...**CLOSE ALL DOORS TO THE OUTSIDE**
